# Mohamed Thabith Shahul Hameed

software Engineering trainee

## Summary

Motivated and detail-oriented Software Engineering graduate with hands-on experience in developing full-stack applications and enterprise-grade systems. Proficient in Java, Spring Boot, SQL, and React, with a solid foundation in object-oriented programming, MVC architecture, and Agile methodologies. Recognized for academic excellence through joint programs by the Java Institute for Advanced Technology and Birmingham City University.

## Personal Projects & Experience

### Online Banking Application

Java, J2EE, Jersey, JWT, Hibernate, JSP, Servlets, MySQL  
Built a secure banking platform with REST APIs, JWT-based login, and a user-friendly interface using MVC design

### Android Mobile App

Java, Firebase, Room DB  
Implemented features like digital library, wishlists, and user profiles using local and real-time databases

### Online Bookshop Web App

Java (Maven), Hibernate, JSP  
Created shopping cart, admin panel, filtering options, and used Hibernate for ORM

### Point of Sale (POS) System

Java SE, MySQL  
Developed a POS system with admin panel, GRN handling, and automated inventory tracking

### E-Commerce Platform

PHP, MySQL, Bootstrap  
Designed a responsive web store with cart, checkout, and admin dashboard

## Education

### Bsc (Hons) in Software Engineering, Birmingham City University

September 2023 - September 2024  
Second Class Honours, Division I (2:1)

Professional Higher Diploma in Software Engineering, Java  
Institute For Advanced Technology

September 2022 - September 2023

Specialized in full-stack development, software architecture, system analysis, and Agile practices

**Professional Diploma in Software Engineering, Java Institute for Advanced Technology**

June 2021 - September 2021

Focused on core Java, OOP, databases, and frontend-backend integration

## HONORS & AWARDS

**Top Performer Award**

2023

Academic excellence during the Professional Diploma

**Best Project Presentation**

2023

Final semester showcase for team-based web app

## Hobbies

Playing **cricket** and **badminton**

**Gym training** and fitness routines

**Learning new technologies** and staying updated with software trends

Exploring **personal development content** and boosting creative thinking
