PROFILE

Motivated Software Engineering graduate with practical experience in developing full-stack applicationsand enterprise-grade systems. I am proficient in Java, Spring Boot, SQL, and React. Strong foundation inobject-oriented programming, MVC architecture, and agile methodologies. Recognized for academicexcellence in software engineering from both the Java Institute for Advanced Technology andBirmingham City University.

TECHNICAL SKILLS & SOFT SKILLS

Java / Springboot

Java Script / React JS

Html / Css

PHP

English

Sinhala

Tamil

🎓 EDUCATION

BIRMINGHAM CITY UNIVERSITY   SEPTEMBER 2023 - NOVEMBER 2024

Bsc (hons) software engineering

• Second Class Division I (59.1%)

JAVA INSTITUTE FOR ADVANCED TECHNOLOGY   NOVEMBER 2022 - SEPTEMBER 2023

Professional Higher Diploma in Software Engineering (FQ-UK Level 5 Equivalent)

• Specialized in full-stack development, software architecture, system analysis, and agile methodologies

• Coursework aligned with UK standards and practical industry requirements

JAVA INSTITUTE FOR ADVANCED TECHNOLOGY   OCTOBER 2021 - NOVEMBER 2022

Professional Diploma in Software Engineering (FQ-UK Level 4 Equivalent)

• Developed foundational skills in software development, programming principles, databases, and web technologies

• Emphasis on core Java, object-oriented programming (OOP), and basic frontend-backend integration

🏆 HONORS & AWARDS

Top Performer Award, Java Institute – For academic excellence during the Professional Diploma in Software Engineering   **2023**

Best Project Presentation, Final Semester Showcase – Recognized for outstanding performance in a team-based web application project   **2023**

✏️ KEY PROJECTS

• **Point of Sale (POS) System** Java SE, MySQL calculations Built a robust POS system including Goods Received Note (GRN) handling, admin login, and automatic itemUsed MySQL for transactional data storage and inventory updates.

• **Online Shop – E-Commerce Platform** PHP, MySQL, Bootstrap Integrated admin dashboard, shopping cart, secure checkout, and search functionality Backend built with PHP and MySQL, styled with Bootstrap for responsive UI.

• **Online Bookshop Web App** Java (Maven), Hibernate, JSP Created Wishlist, shopping cart, admin panel, and advanced filtering features Used Hibernate for ORM and JSP for frontend rendering.

• **Android Mobile App** Java, Firebase, Room DBDeveloped features like user profiles, Wishlist, and digital library Firebase used for real-time sync and Room for local persistence.

• **Online Banking Application** Java, J2EE, Jersey, JWT, Hibernate, JSP, Servlets, MySQL Developed a secure online banking system with RESTful APIs, JWT authentication, Hibernate ORM, and dynamic JSP interfaces following MVC architecture.
